Information Technology has installed new electronic access control to some of the College Dorms and Greek Housing. This new access now uses your smartphone instead of your ID to give you access. Follow the instructions below to get access.

Install the Mobile App - Click below to get the app on your smartphone.

Select Avigilon Alta Open App

**Input your Hanover College email address and then touch "Next"**

Next screen lets you select "Open Email App". Find the email sent from "Avigilon Alta".

Open the email from Avigilon Alta on your smartphone and touch Set Up Phone

This will open the OpenPath Mobile Access app. Follow the instructions to setup your phone permissions to gain access.

***Make sure to give Location permission to the Openpath app.

Once you get to the screen below you will have access.

When you arrive on campus to access the door make sure to have your smartphone on you and wave your hand in front of and near to the door reader. Door Reader below.

If you don't have a smartphone, please contact the IT helpdesk (helpdesk@hanover.edu or 812-866-6899).
