

Register Your Device

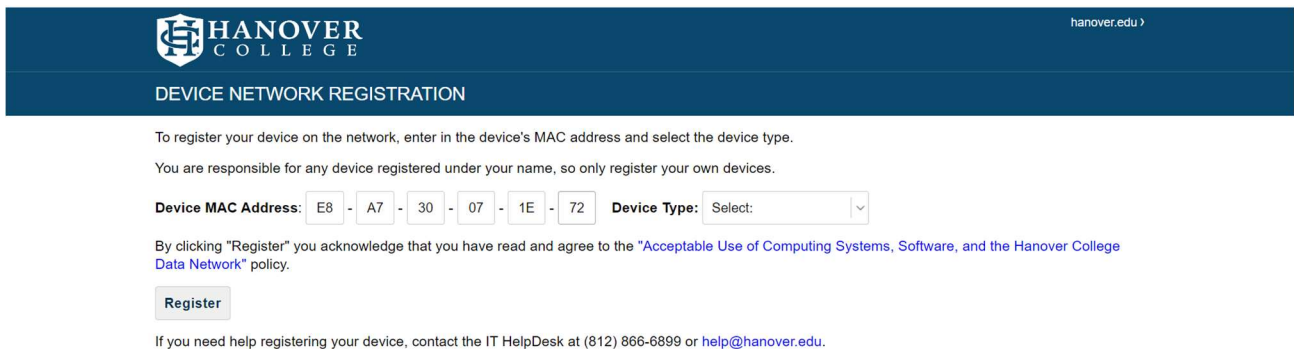

For devices such as game consoles, smart TVs, and smart speakers you must register the device before accessing the wifi network. To do this, you will need to locate the MAC Address of the device and follow this guide to complete setup.

1. Find the MAC Address of the device and have it close by. This varies per device. Easiest method to find is to google the device name + mac address. For example, "roku tv mac address".
2. Navigate to register.hanover.edu and sign in with your Hanover username and password when prompted. **(Your username is what comes before the @ in your email)**

A screenshot of a web browser showing the sign-in page for register.hanover.edu. The browser's address bar displays "register.hanover.edu". The page content includes a "Sign in" heading, the URL "https://register.hanover.edu", and two input fields: "Username" and "Password". Below the fields are two buttons: "Sign in" and "Cancel".

3. Enter the MAC Address of the device with two characters per box. **(Possible characters in a MAC Address are the letters A-F and numbers 0-9)**

The screenshot shows the "DEVICE NETWORK REGISTRATION" page on Hanover College's website. At the top left is the Hanover College logo, and at the top right is the text "hanover.edu". The main heading is "DEVICE NETWORK REGISTRATION". Below this, there is instructional text: "To register your device on the network, enter in the device's MAC address and select the device type. You are responsible for any device registered under your name, so only register your own devices." The registration form includes a "Device MAC Address" field with six input boxes containing the values "E8", "A7", "30", "07", "1E", and "72", and a "Device Type" dropdown menu with "Select:" as the current selection. A link for the "Acceptable Use of Computing Systems, Software, and the Hanover College Data Network" policy is provided. A "Register" button is located below the form. At the bottom, there is contact information for IT HelpDesk: "(812) 866-6899 or help@hanover.edu".

4. Select the device type from the drop-down menu.

HANOVER COLLEGE hanover.edu

DEVICE NETWORK REGISTRATION

To register your device on the network, enter in the device's MAC address and select the device type.
You are responsible for any device registered under your name, so only register your own devices.

Device MAC Address: - - - - - **Device Type:**

By clicking "Register" you acknowledge that you have read and agree to the "Acceptable Use of Computing Systems, Software, and the Hanover College Data Network" policy.

If you need help registering your device, contact the IT HelpDesk at (812) 866-6899 or help@hanover.edu.

5. Click the "Register" button.

DEVICE NETWORK REGISTRATION

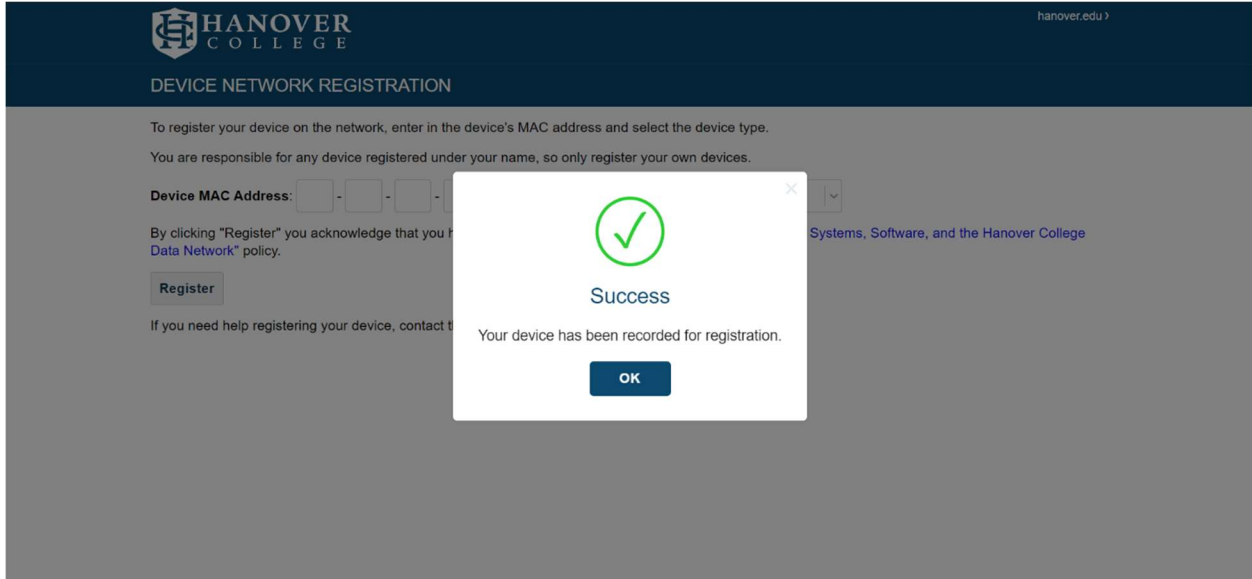

To register your device on the network, enter in the device's MAC address and select the device type.
You are responsible for any device registered under your name, so only register your own devices.

Device MAC Address: - - - - - **Device Type:**

By clicking "Register" you acknowledge that you have read and agree to the "Acceptable Use of Computing Systems, Software, and the Hanover College Data Network" policy.

If you need help registering your device, contact the IT HelpDesk at (812) 866-6899 or help@hanover.edu.

You should now see a popup saying your device was successfully registered. Allow a couple of minutes for our system to sync before attempting to connect your device to the network. When you connect the device to the “HC Manual Registration” network you should not be prompted to enter a password. If the device has been registered it should be granted access to the network. If you have any issues, please contact the IT Helpdesk by phone at (812)866-6899 or by email at help@hanover.edu

The screenshot shows the Hanover College website's "DEVICE NETWORK REGISTRATION" page. The page header includes the Hanover College logo and the URL "hanover.edu". The main content area contains instructions for registering a device, including a form for entering the MAC address and a "Register" button. A white success popup is overlaid on the page, featuring a green checkmark icon, the word "Success", and the message "Your device has been recorded for registration." with an "OK" button.
