# Get Connected with Android Devices

Connecting to Hanover's wireless networks using Android devices is simple. Follow these steps to gain internet access on campus.

1. In your device's WiFi settings, locate the "eduroam" network and click on it to begin getting connected.
2. Use the following settings to get connected:

EAP Method: PEAP
Phase 2 Authentication: MSCHAPv2
CA Certificate: Trust on First Use
Identity: your Hanover email address
Anonymous Identity: your Hanover email address
Password: your Hanover email password

⚠️ if prompted for "domain", enter: campus.hanover.edu ⚠️

3. When all fields are filled correctly, click "Connect". You will then be asked to confirm whether you trust the certificate or not. Verify that the certificate server name is "ldap.hanover.edu" and click "Yes, connect".

Is this network trusted?

Only allow this network to connect if the information below looks correct.

Server Name:
ldap.hanover.edu

Issuer Name:
SSL.com RSA SSL subCA

Certificate Expiration:
Aug 2, 2025

SHA-256 Fingerprint:
F3:91:08:5E:0E:12:03:41:DF:C4:3F:2F:82:ED
:69:1A:7D:A3:61:BB:24:D3:60:16:70:EB:67:3
5:D6:1F:69:0D

No, don't connect   Yes, connect
