

## Get Connected with Chromebooks

Connecting to Hanover's wireless networks on a Chromebook is simple. Follow these steps to gain internet access on campus.

1. In Wifi settings choose **eduroam**.
2. Set the following settings, leave the rest on the default settings
  - a. EAP method : **PEAP**
  - b. EAP Phase 2 authentication : **MSCHAPv2**
  - c. Server CA Certificate: **Default**
  - d. Subject Match: **ldap.hanover.edu**
  - e. Domain suffix match: **campus.hanover.edu**
  - f. Identity: **your Hanover email address**
  - g. Password: the user's password
  - h. Anonymous identity: **your Hanover email address**
3. Click Connect to connect.
