

Creating a video in a forum

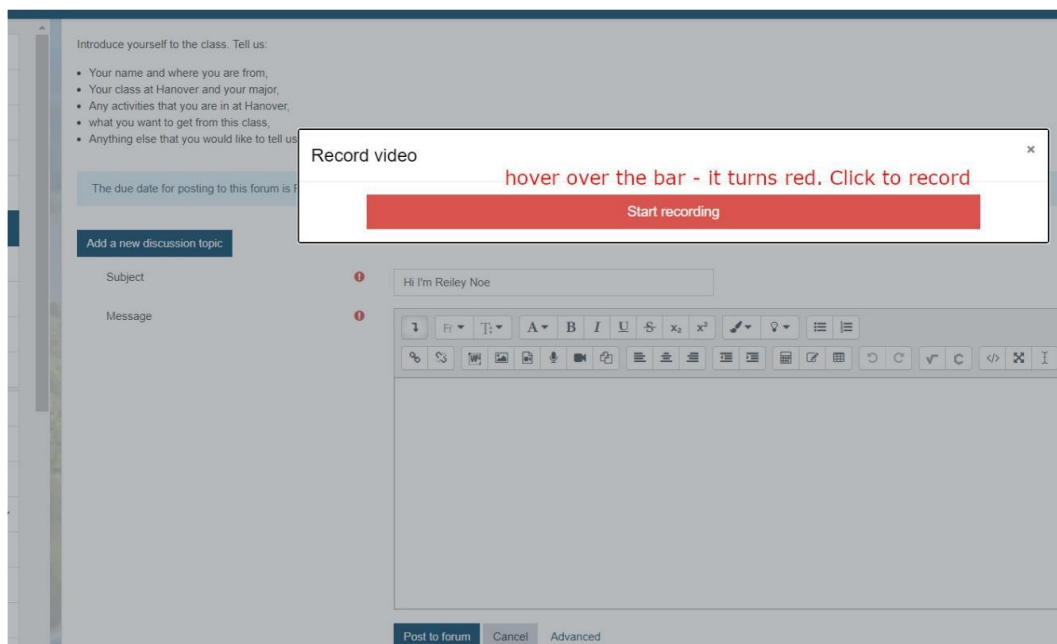

You can post a video directly in a forum. You will record it directly within the forum – **you won't be recording it and uploading it**. If you are a Mac user, use either the Chrome or the Firefox browser. Safari will not work well with this.

If you are the first person to post, here's what you do:

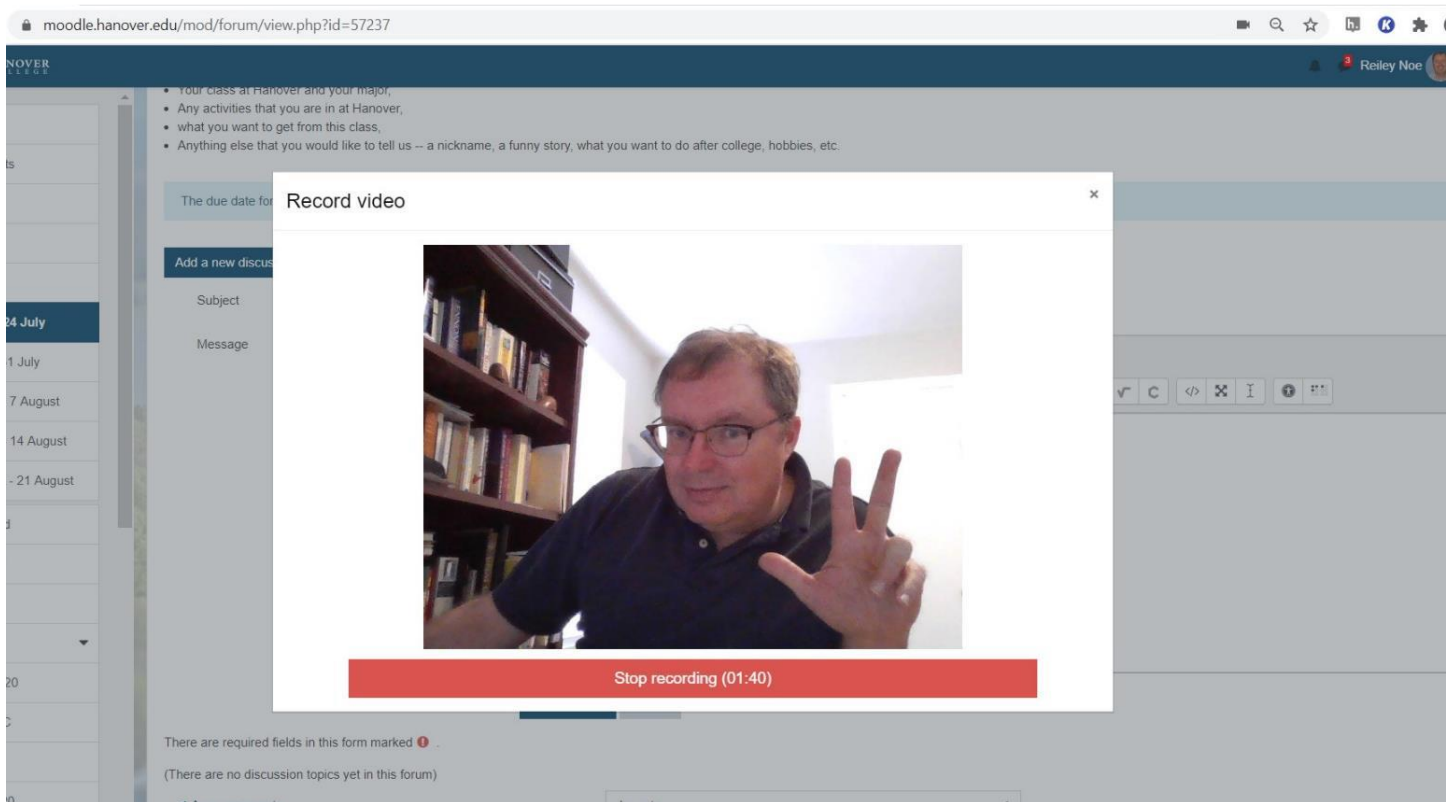

1. Click on the blue button to post, then add a name for your post. Click the down arrow to reveal a new line in the text editor. The camera icon will allow you to record video.

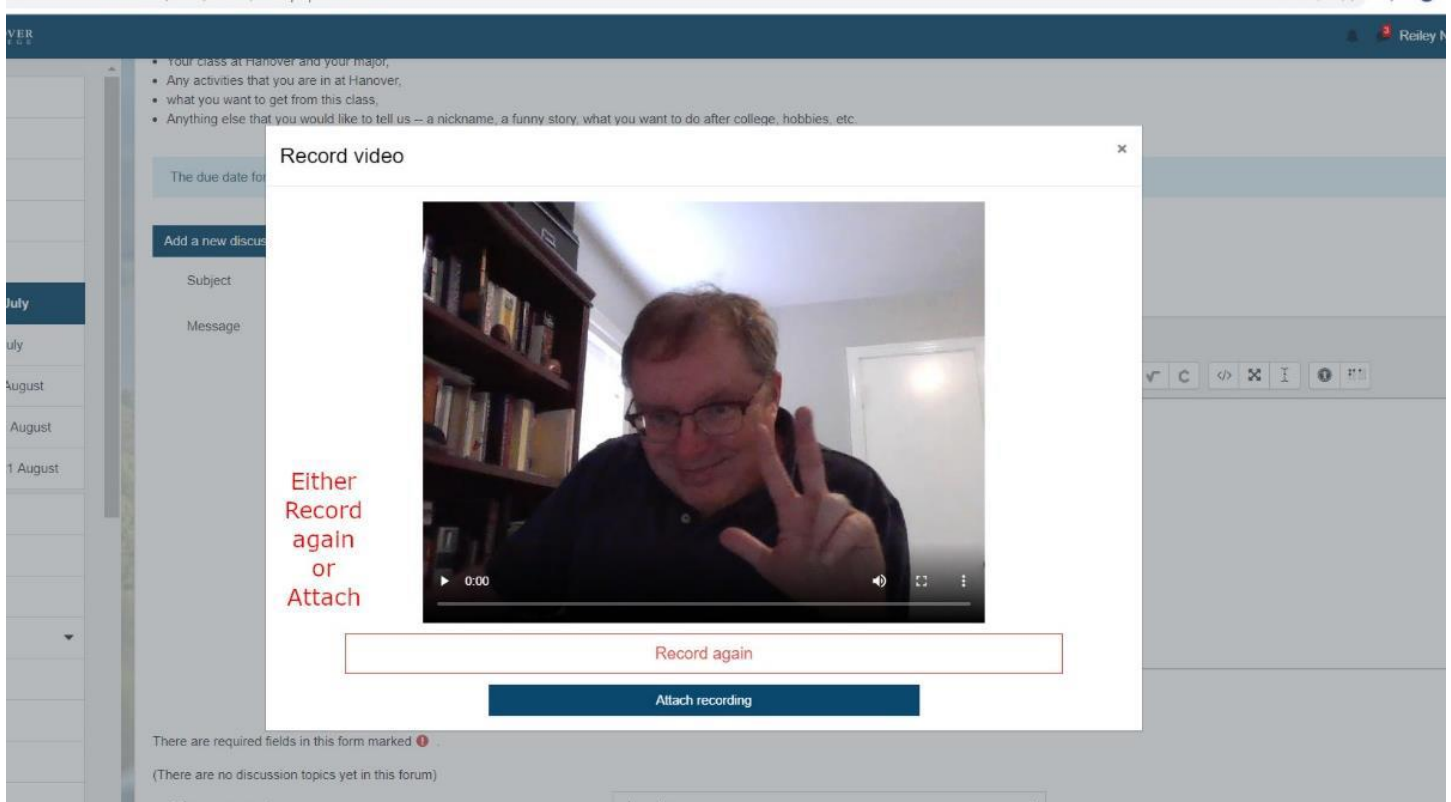

2. Click on the bar to record. It will turn red when you hover over it.

3. When you are finished, click the red bar to stop the recording.

4. Click on the white button to record again or the blue button to submit the recording.

5. Click on the blue post to forum button to add this to the forum.

• Your class at Hanover and your major,
• Any activities that you are in at Hanover,
• what you want to get from this class,
• Anything else that you would like to tell us -- a nickname, a funny story, what you want to do after college, hobbies, etc.

The due date for posting to this forum is Friday, 31 July 2020, 5:39 PM.
